RELOCATION.RS

The first digital service for
managing relocation and
adaptation processes

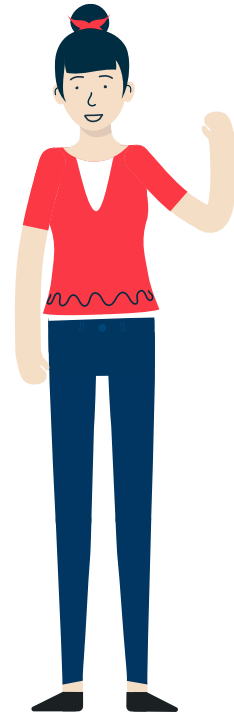

The action of relocating abroad entails countless difficulties that need to be faced: Identifying visa requirements, understanding the employment, tax local law and regulations in Serbia; besides of the knowledge of the application procedures for the residence permit.

Based on it, we offer you a personalized attention to the beginning until the end of the procedure of your migration, helping you to manage your new beginning across border with more security and efficiency.

Once you have ordered our services, you can easily check the status of your application or request through your personal account on our website. This provides you with real-time updates and allows you to stay informed throughout the entire process.
